Brief Description of BMP:	Regional effort for Public Education and Outreach through a committee representing Municipalities, Townships, and Counties.	Regional effort for Public Participation/Involvement through a committee representing Municipalities, Townships, and Counties.	Map storm sewers utilizing GIS data with coordination from a regional planning commission	Visual Dry Weather Screening	Conduct site plan review according to Erosion, Sediment, and Storm Water Control Ordinance	Regulatory Control Program	Conduct post-construction inspections and place on file with project documents	Employee Training Program	Inspect inlets from list that are prone to clogging. Follow written street sweeping schedule as planned
Measurable Goal(s), including frequencies: Annual report on status									
Year 1	Perpetuate status of existing committee for future and continue of public education and outreach. The existing committee represents Municipalities, Townships, and Counties with varying characteristics.  Communicate NPDES Phase II Storm Water Information and Efforts through various media types.  Record listing of each governmental organization's storm water education efforts.	Perpetuate status of existing committee for future and continue of public education and outreach. The existing committee represents Municipalities, Townships, and Counties with varying characteristics.  Communicate NPDES Phase II Storm Water Information and Efforts through various media types.  Record listing of each governmental organization's storm water education efforts.	Continue budgeting for mapping efforts; explore services with a regional planning commission for services to complete GIS mapping	Budget appropriate personnel in municipal budget to conduct visual dry weather screening	Continue evaluating existing ordinances regarding Erosion, Sediment, and Storm Water Control.	Review other government organization's ordinances regarding Post-Construction Runoff Control	Budget appropriate personnel in municipal budget to conduct post-construction inspections	Continue inventory equipment, update as new equipment is obtained and old equipment is retired.	Outline map of street sweeping schedule. Update as necessary with newly acquired roadways.
Year 2			Field data collection of storm sewer data by the a regional planning commission	Use draft of map from C1 or city map to identify logical sections of the storm sewer system	Conduct interviews with municipal personnel and discuss success of implementation and enforcement.	Draft ordinance with penalties for review by municipal personnel and discuss implementation	Keep a running list of all construction locations, responsibility, contact information	Continue recording annual maintenance of equipment	Identify problem areas and increase sweeping frequency as necessary
Year 3			Field data collection of storm sewer data by the a regional planning commission	Schedule walking of creeks and open drainage ways to detect illogical water discharge and illegal dumping, note on map, and determine point of origin	Record locations and review on a time-specified basis (possibly monthly)	Make ordinance available for public review	Update list on an annual basis as to the condition and effectiveness of location	Attend applicable training seminars as offered as necessary	Evaluate respective government owned facilities for proper Pollution Prevention/Good Housekeeping techniques.
Year 4			Review and final corrections of storm sewer data	List origin locations, point of discharge, contact information, property owner(s) etc. Publicly list offenders and their violations	Conduct interviews with municipal personnel and discuss success of implementation and enforcement.	Implement and enforce ordinance	List both compliant and non-compliant locations		
Year 5			Complete record of all municipally owned storm sewers on electronic file	Determine mechanism for correcting non-compliant locations (perhaps ordinance and penalties)	Continue implementation and enforcement. Continue evaluation of possible improvements that may lead to greater success of the ordinance's intentions.	Record locations and review on a time-specified basis (possibly monthly)	Determine for correcting non-compliant locations (perhaps ordinance and penalties)
