

BEAUTIFY BARTONVILLE INITIATIVE

In an effort to assist our first responders and YOU, we are respectfully asking that all Village residents adhere to the ordinance regarding address numbers on homes and other structures. Nearly 50% of homes in the Village are not in compliance with this ordinance, making it extremely difficult for your first responders to find your specific address in the event of an emergency.

ARTICLE II. - STRUCTURE NUMBERING Sec. 18-29. - Specifications

- **Number style and size.** All commercial, business, residential, and other structures in the Village will be numbered in block numbers not less four inches in height. While numbers may be spelled out in words, in accordance with the height dimensions stated, preference is given to actual numbers.
- **Location; visibility.** In addition, each figure shall be legible and placed in a conspicuous position on the front side or above the front door of every structure. All numbers shall be visibly located on the structure.
- **Other stationary structures.** Posting of numbers on other stationary structures, such as mailboxes, pillars, or planters located on the property, does not relieve the owner or occupant of the duty to post numbers on the commercial, business, or residential structure itself, as required by this Article. (Ord. No. 1372, 2-12-2004)

A GRACE PERIOD FOR COMPLIANCE HAS BEEN APPROVED BY THE BOARD THROUGH 12-31-23.

For more information - see Section 18-29 - 18-30 of the Village Code of Ordinances.
